A woman with long brown hair, wearing a white, long-sleeved blouse with a gathered elasticated cuff, is shown from the side. She is reaching up with her right hand towards a cluster of baby's breath flowers. The background is a field of similar flowers, and the lighting is warm and golden, suggesting late afternoon or early morning. The overall mood is serene and natural.

HIGHLAND SOAP CO.
 Visitor Centre & Larder Café
 Fort William

Hello & Welcome —

We're a family-run maker of organic soap and skincare based in the Scottish Highlands. Crafted by hand at the foot of Ben Nevis, our products celebrate the place we call home, using sustainably sourced ingredients to create skincare that is honest, simple and natural.

Our Core Principles —
 Organic & Natural
 Paraben Free
 Natural Ingredients
 Not Tested on Animals
 Sustainable Packaging

Consumers are increasingly mindful of the products they choose. Authentic provenance, responsible production, and environmental impact all play a role, alongside a business's commitment to supporting local communities through employment and long-term economic contribution.

The Highland Soap Company meets these expectations as an independent maker, handcrafting soap and skincare in the Scottish Highlands. We use organic, natural ingredients and sustainable packaging to create products customers trust and return to.

From our purpose-built workshop, visitor centre, shop and café, we bring together the insight of makers and retailers, with a clear understanding of how customers shop and how to support wholesale partners in making the range a success.
