CELEBRATING 50 YEARS

AS SCOTLAND'S PREMIUM
BATH AND BEAUTY BRAND

ESCAPE TO THE SCOTTISH WILDERNESS FROM THE COMFORT OF HOME

At Scottish Fine Soaps, we remain dedicated to creating products that help you look, feel and smell extraordinary, while reducing our impact on the world around us. As we move into 2026, we celebrate another year of innovation, craftsmanship and thoughtful design – inspired by Scotland's landscapes and a growing appreciation for indulgent, purposeful self-care.

We're thrilled to unveil our new Body Scrub Bars, available across Sea Kelp, Wild Heather, Au Lait, Oakmoss and Thistle & Black Pepper. Each soap is enriched with carefully selected natural exfoliants, from finely ground botanicals to softly polishing seeds – to effectively revitalise the skin. Presented in luxurious drawer-style cartons, each bar is a sensory delight with strong gift appeal.

Body Mists also join our Sea Kelp and Wild Heather collections. These delicately scented mists layer beautifully with existing products, offering a versatile way to refresh skin or subtly scent the space around you.

Another innovation for 2026 is our Fine Fragrance Body & Hand Wash collection: eight luxurious washes inspired by the world's most enticing destinations. From luminous florals and exotic fruits to fresh coastal notes and warm woods, every scent offers a moment of escape through carefully layered perfume compositions.

Our classic Silver Buckthorn range has also been refreshed, featuring a sleek new look, stylish caddy and convenient refill option for the 300ml Hand Wash, reflecting our commitment to the environment without compromising style.

Sustainability continues to guide every decision we make. We are proud to be an accredited Zero Avoidable Waste to Landfill company, powered entirely by renewable electricity. We prioritise naturally derived, vegan and cruelty-free ingredients where possible, alongside eco-conscious packaging. All 300ml and 500ml bottles are made using Prevented Ocean Plastic, and we continue to explore ways to reduce environmental impact while maintaining the premium quality our customers expect.

With wellness and self-care more important than ever, our ranges offer the perfect synergy of indulgence and purpose. From innovative new textures and fragrances to eco-conscious packaging, we invite you to explore, delight and refresh your routine – and join us on our continuing journey of discovery, indulgence and care.

GLOSSARY

The Scottish Fine Soaps company ethos is to ensure that all ingredients chosen are of the highest quality and are as naturally derived as possible.

We regularly review our formulations and ensure that customer safety and efficacy are fully met. We are continually improving our formulations and packaging to ensure they are as sustainable and kind to the environment as possible.

Although the use of sulfates is safe and commonplace, as consumers enjoy the rich lather they produce, we wanted to provide alternatives for those who desire something milder as sulfates have a reputation for drying the skin. This has led us to develop a natural plant based formulation which can be found in many of our washes.

We do not purchase or use palm oil for our products. However, certain raw materials are derived from palm oil, such as some of our soap ingredients. We have worked to ensure that our suppliers are RSPO (Roundtable for Sustainable Palm Oil).

We do not test any of our products on animals and choose suppliers who hold similar values. All our formulations are free from animal-based ingredients with the exception of some of our older Hand & Nail Creams that contain lanolin. These are currently being phased out.

All of the products in this brochure display our vegan  symbol next to them, illustrating that our new ranges are entirely vegan friendly.

ACTIVE INGREDIENTS	PROPERTIES AND BENEFITS
Allantoin	Gentle and non-irritating moisturiser that increases skin smoothness. Helps with skin healing and keeps your skin moisturised by preventing moisture loss. Can also act as an exfoliant by helping to shed dead skin cells.
Aloe Vera	Its soothing properties helps skin heal and reduces inflammation.
Avocado Oil	Avocado Oil originates from South Africa where they utilise the damaged Avocados (that are not fit for sale as a fruit). This high vitamin enriched oil is delicately cold pressed from the flesh of the Avocado pear. An excellent emollient.
Blackcurrant Seed	A gentle exfoliating powder derived from the seeds of the Blackcurrant Berry. This natural ingredient is renowned for its ability to buff away dead skin cells, leaving the skin feeling soft, smooth, and radiant. It is fine and non-abrasive, making it suitable for all skin types, even sensitive skin. It is also a good source of vitamin C, an antioxidant that helps to brighten and revitalize the complexion.
Black Pepper	The coarse texture of Black Pepper acts as a potent exfoliant, aiding in the removal of dead skin cells and unclogging pores.
Chamomile Milk	Our organic farm grown Chamomile (Chamomilla Recutita (Matricaria) Flower) is a plant in the family of daisy-like flowers. The flower contains many active compounds and scientific research has discovered the plant's anti-oxidation, anti-inflammation and anti-septic properties.
Citric Acid	A natural astringent, helping to dry out excess oil and a natural exfoliant to help remove dead skin cells and clean pores.
Cocoa Butter	This naturally rich emollient, high in fatty acids, hydrates and nourishes skin.
Coconut Oil	Quickly absorbs into skin leaving it feeling hydrated and enriched. Has an abundance of antioxidants that are ideal for nourishing dry skin. Soothing topical barrier without clogging pores.
Coffee Extract	Provides numerous skin benefits including anti-oxidant properties, it is hydrating, improves skin texture, with skin calming and firming properties.
Coffee Granules	An eco-friendly alternative to plastic microbeads and offers a natural and sustainable skincare solution. Coffee Granules are a gentle but effective exfoliator that helps to remove dead skin cells, revealing the smooth and radiant skin beneath.
Cucumber Extract	A superfood for skin, cucumber extract contains a large amount of Vitamin C and minerals that help moisturise and soothe skin.
Dead Sea Salts	Mineral rich salts extracted from the Dead Sea. Rich in magnesium, potassium and calcium, they are used to help increase skin hydration, improve the skin barrier function and soothe irritated skin.

ACTIVE INGREDIENTS	PROPERTIES AND BENEFITS
Epsom Salts	Relieves pains and muscle cramps. Eases stress and relaxes the body.
Eucalyptus Essential Oil	Known for its cleansing and immune boosting properties, it also gives a soothing, cooling effect on the skin.
Flaxseed Oil	Flaxseeds are full of omega 3 fatty acids that helps in giving you glowing skin. It helps soothe dry skin, skin irritation, redness and inflammation. UK sourced.
Fucus Vesiculosus Extract	Also known as Bladderwrack, a seaweed that is locally, sustainably and naturally sourced from our Scottish shores is rich in minerals: calcium, iodine, iron, magnesium, potassium, sodium, sulfur and silicon. It also contains high levels of carotene, selenium, zinc, and antioxidants including vitamins A, C, and E. It is known to be an anti-oxidant and has great benefits for your hair and skin.
Gluconolactone	Gluconolactone is a gentle polyhydroxy acid (PHA) that offers multiple skincare benefits, including exfoliation, hydration, and antioxidant protection, making it suitable for sensitive skin types.
Glycerin	It is hydrating and supports the skin barrier's function as it prevents water loss in the skin. Preventing this loss of moisture from the skin makes it appear softer & plumper. Glycerin also has a low molecular weight, which means it can penetrate better into the skin and is easily absorbed.
Glycolic Acid	Glycolic acid is a powerful alpha hydroxy acid (AHA) known for its exfoliating, hydrating, and smoothing properties, making it a popular ingredient in skincare products.
Green Clay	Purifying and detoxifying this 100% natural mineral product from France will help even out skin tone and remove impurities from skin.
Guarana Extract	Is energising and revitalising due to being rich in caffeine, which improves skin radiance, making the skin more vibrant.
Heather Extract	Also known as Calluna Vulgaris is locally foraged and organically farmed. Heather is a well-known symbol of Scotland, where it is seen as an icon of the Highlands. Heather is regarded in Scotland as being lucky, a tradition brought from Balmoral to England by Queen Victoria. Heather research has shown anti-oxidation, anti-pollution and anti-inflammation actives demonstrated by in vivo and ex vivo experiments. These effects of heather are known to be due to active that have been identified in heather extracts.

ACTIVE INGREDIENTS	PROPERTIES AND BENEFITS
Hops Extract	Hops (<i>Humulus Lupulus</i>) were historically consumed as flavouring and stabilising agents in the brewing industry for around 1,500 years. As a result of fermentation, the metabolites that are released into the air were found to help beer labourers' scalps to be healthier and stronger. In recent herbal and medicinal studies, hops can promote hair growth and shine and may help to achieve a healthy scalp condition due to it containing abundant resins which provide anti-oxidation and anti-inflammation effects. The hops we use in our extracts are organically grown in the UK by an established grower-owned hop merchant that has been providing hops since 1865.
Hyaluronic Acid	Hyaluronic acid is classed as a humectant as it's incredibly hydrating and can hold 1,000 times its own weight in water. This means that it draws water into the skin like a sponge, plumping and restoring firmness. Powerful moisture binding ingredient. Creates hydrated, healthy looking skin and speeds up wound healing.
Jojoba Esters	Similar to the oils the skin naturally produces, therefore they can act as a natural moisturiser which is softening for the skin. This helps with slip and glide while shaving.
Jojoba Oil	A rich source of fatty acids. Its anti-inflammatory and healing properties help relieve dryness and flaking skin. A natural source of vitamin E, it fights oxidative stress caused by everyday exposure to pollutants.
Lactic Acid	A member of the Alpha-hydroxy acid family, lactic acid helps improve skin's overall texture by its exfoliating and moisturising effects and also by helping to promote collagen growth.
Laminaria Digitata Extract	Also known as Kombu Kelp, a kelp that is locally, sustainably and naturally sourced from our Scottish shores, it is rich in the vitamins A, C, D, E, B, including B12, with a detected 60+ trace minerals. It has been proven to have anti inflammatory properties and boost collagen production for a firming effect and also helps with skin cell renewal.
Lemon Essential Oil	Lemon is rich in anti-inflammatory and antibacterial compounds. It is also astringent and has detoxifying properties that make it helpful in reducing excess oil and also in removing dead skin cells.
Loofah	A gentle, natural exfoliant, revealing a smoother and brighter skin underneath and can improve overall skin texture.
Magnesium Chloride	Magnesium is an essential mineral for the 100's of biochemical reactions in the body and is also known as an important chemical in helping to reduce skin breakouts, allergies and collagen function. Magnesium can be absorbed through the skin.

ACTIVE INGREDIENTS	PROPERTIES AND BENEFITS
Magnesium PCA	Can help skin cells to regain their optimal energy level. Magnesium is a trace element which is essential for cell metabolism; it acts as an anti-stress and anti-fatigue agent in the body.
Milk Thistle Extract	The Milk Thistle (<i>Silybum Marianum</i>) is locally foraged and organically farmed. The thistle has been used as the official emblem of Scotland since the 15th century. Studies have shown milk thistle to have anti-oxidation and anti-inflammation effects.
Menthol Crystals	Cooling effect. Helps to minimise irritation.
Oatmeal	Oatmeal is an excellent exfoliant due to its gentle texture. It effectively removes dead skin cells, revealing a fresher and smoother complexion. Additionally, oatmeal's moisturising properties make it a great choice for hydrating and nourishing the skin, making it a valuable ingredient in skincare routines.
Oat Milk	Our Scottish grown and sourced oats which are using in our oat milk (<i>Avena Sativa</i>) are rich in essential nutrients e.g. B vitamins and minerals, especially manganese. The history of oats in skincare dates back to Ancient Egypt, with oat baths still being used today. One of the most well-studied active compounds in oat is avenanthramides which have anti-inflammation activities. Oats are also high in β -glucans, which have protective, water-holding and emollient properties. Oat extracts have been found to show clinical improvements in skin dryness, roughness and scaling.
Olive Oil	Natural antioxidant and hydrating.
Panthenol (Vitamin B5)	Extremely moisturising as it improves moisture retention in the skin as it helps retains moisture deep within the tissue.
Peppermint Essential Oil	A natural cleanser with antibacterial and antiseptic properties. Peppermint oil contains menthol and is therefore used for its cooling effects.
Pumice	Superfine pumice is an excellent exfoliator on areas of hard skin such as feet and elbows.
Rapeseed Oil	Farmed and cold pressed locally, our rapeseed oil is used as an effective skin conditioner by providing a long lasting protective barrier. It also helps to transport the active heather extract and increase its absorption through the skin.
Rowan Extract	Our locally foraged and organically farmed rowan (<i>Sorbus Aucuparia</i>) extract has antioxidant and anti-inflammatory benefits. Once grown in gardens for protection against mythical spirits, it is still considered a taboo to cut down rowan trees in Scotland.
Raspberry Seed	A natural exfoliant made from the finely ground seeds of the raspberry fruit. It is a gentle and effective way to remove dead skin cells, leaving the skin feeling smooth, bright and revitalised.

ACTIVE INGREDIENTS	PROPERTIES AND BENEFITS
Safflower Oil	Rich in vitamin E it keeps skin moisturised. It can be considered as the best oil around for hair and beard growth, as it is not only easily absorbed by the hair which helps in retaining moisture, but it also prevents protein loss that damages hair and eventually leads to hair loss.
Scots Pine Extract	Our Scots pine (<i>Pinus Sylvestris</i>) is sustainably foraged and sourced in Scotland. It was historically used by the Scots for medicinal purposes for centuries. Scots pine is a native Caledonian tree, found in abundance in the Scottish Highlands. Traditional use of Scots pine bark extract is as an antioxidant and anti-inflammatory agent. Over 26 antioxidant phenolic compounds have been identified in the Scots pine inner bark and they have been shown in research studies to have anti-oxidant and anti-inflammatory properties.
Shea Butter	Shea butter has renowned skin soothing and replenishing properties. Moisturising and protecting, shea butter aids in the skin's natural collagen production to help create smooth skin.
Sodium PCA	Naturally derived conditioning agent, has an ability to bind moisture to cells so can deliver moisture to the hair.
Soya Oil	High in vitamin E which makes it an effective moisturiser. Skin firming.
Sunflower Oil	A great source of vitamin E, sunflower oil has antioxidant and emollient properties that help the skin retain its moisture.
Sweet Almond Oil	Pure and gentle yet rich in fatty acids that are easily absorbed by the skin to protect against dehydration and softening skin, leaving it velvety smooth. Rich in vitamin E and fatty acids.
Tartaric Acid	A common AHA, it works to smooth the skins surface and improve skin tone and texture. It is also rich in antioxidants which combat free radicals.
Vitamin E	Antioxidant which helps neutralise free radicals which damage skin cells.
Walnut Shell Powder	Walnut shell is ground to fine particles. The hardness makes them a highly effective natural exfoliant to reveal soft, smooth healthy skin. Many of the best, most sustainable and biodegradable exfoliants are the by-products of farming such as ground walnut shell.
